1. https://journals.plos.org/plosone/article?id=10.1371/journal.pone.0298007#sec002
    a. Data Availability: https://doi.org/10.5281/zenodo.10694589
    b. Method of analysis: binomial generalized linear regression
    c. Date of Data: published February 22, 2024 → collection completed on 6 July 2023
    d. Complexity: binomial generalized linear models have yet to be reviewed in class
2. https://journals.plos.org/plosone/article?id=10.1371/journal.pone.0297466#sec006
    a. Data Availability: https://doi.org/10.7910/DVN/P0BVIN
    b. Method of analysis: multivariate logistic regression
    c. Date of Data: collected in February 2023
    d. Complexity: multivariate logistic regression has yet to be reviewed in class
3. https://journals.plos.org/plosone/article?id=10.1371/journal.pone.0300417#sec036
    a. Data Availability: https://doi.org/10.1371/journal.pone.0300417.s001
    b. Method of analysis: multivariate logistic regression
    c. Date of Data: collected in 2022* (too old according to the instructions, but we can still ask if we really want to)
    d. Complexity: multivariate logistic regression has yet to be reviewed in class
